

Note From the President:

Dear residents:

It's that time again - another scheduled meeting to discuss the neighborhood priorities.

Earlier this year, we voted on board members and annual assessments. We are happy to report that the neighborhood valued the recent work we've been doing and passed the increased assessments. We also properly elected a board and have begun to focus on the larger infrastructure projects we discussed.

The board will be updating those in attendance on the big three infrastructure items: lake, playground and tennis courts. There is a lot going on with all of this and it is a very large project to set in motion. They appear to be 3 separate projects, but the overflowing water we see, ties them all together. More details on this at the meeting.

We will also be seeking volunteers for our next annual event - Fish N Feast. We are getting better about identifying volunteer opportunities with defined commitments (small jobs that allow you to help). If you are interested, please let us know as soon as you can. Time flies this time of year, and if we don't find a group by the meeting, we may have to cancel the event.

Please see if you can make some time to attend this meeting. I look forward to a packed house (literally)!

Respectfully,
Josh Spencer

Spring Lake Estates Board Member/President

Summer 2019 Meeting Information

Where: 3124 Spring Lake Dr
(President's home)

When: July 22, 2019 @ 7 PM

Fish N Feast 2019

This was a new event in 2018. During the day, we had kids fishing. Later that afternoon, there was a cookout and activities in the park.

We still need a Lead for the event and volunteers. The event is scheduled for August 25th. The volunteers will decide on the final activities for the event.

Additional Details on Facebook as the event develops.

Access Control

There are multiple residents affiliated with security companies that are residents of our neighborhood. The neighborhood will be looking to partner with someone to assess our needs and create a gameplan/budget for improved security of our common areas. We are looking for someone that is patient and willing to partner with us – this will likely be a slow process.

If you or someone you know is interested, please contact Josh Spencer for additional Details.
